

CEP SUMMER SOCIAL CRUISE ON July 29, 2017 Coal Harbour-English Bay Vancouver.

Eleven members and twelve guests of CEP participated in a social cruise on the night of 29 July 2017, joining members of the Sea-to-Sky Branch of *Engineers and Geoscientists of BC* (EGBC). The cruise was on board the motor yacht *V2V Empress* for a 3-hour sailing across the Burrard Inlet to English Bay return. Coinciding, was the annual *Celebration of Light* fireworks display by a Japanese competing team, with the yacht dropping anchor for a spectacular water-view of this popular event attended by, reportedly, 500-thousand viewers from surrounding beaches. Members and guests enjoyed the exciting atmosphere and canapé-style catering on-board, most conducive to social networking. Over-all a satisfying and effective event, well serving the objectives of CEP.
