Should I buy an EV? An Engineer's Review of EV Technology.

Speaker:

Dr. Patrick Palmer, C.Eng. P.Eng.

Professor, School of Mechatronic Systems
Engineering.

Ph.D., Imperial College London, UK

M.A., University of Cambridge, UK

B.Sc. (Eng), Imperial College London, UK

Abstract

EV technologies have rapidly grown for decades now and we will review such technologies using solid but basic engineering principles we may have forgotten since our undergrads days.....

Biography

Dr. Patrick Palmer has been professor in Mechatronic Systems Engineering at Simon Fraser University since 2019. Dr. Palmer has founded 3 companies and consulted for many top companies in the industries around the world. Dr. Palmer has taught for 33 years at the University of Cambridge in United Kingdom and acted as Associated Professor at UBC for about 5 years. Dr. Palmer is the Emeritus Fellow of St Catharine's College in Cambridge, and received his Ph.D and BSc(Eng) in electrical engineering from Imperial College in UK. He is also a the student apprentice with GEC Rugby for 4 years.

No Registration is Required:

This event is provided **free of charge** and welcomes all interested **members and guests**.
